

Jack Daniel's® EXP - Charcoal

OVERVIEW

Two American originals, Peavey® and Jack Daniel's®, come together to create a line of finely crafted guitars. From front porch strumming to floor-stomping jams, you won't find a finer combination of quality and good taste than Jack Daniel's musical products from Peavey.

This single-cutaway Peavey Jack Daniel's electric guitar is crafted from basswood with an integral center body section and features a quilt maple top. Two humbucking pickups are ceramic loaded for warmth, punch and presence, harmonically positioned and frequency calibrated. A treble-compensated volume control enhances pickup clarity at low volume levels. Chrome machine heads and chrome knobs with Old No. 7® stamped on top add the finishing touch to this special instrument.
