

PV® 215

OVERVIEW

The PV® 215 is a two-way double 15" speaker in a trapezoidal enclosure capable of handling 700 watts program and 1400 watts peak power. An ideal example of our long-running "performance & value"-oriented PV Series, this very affordable enclosure includes two 15 inch premium woofers with 2 3/8 inch voice coils for pumping plenty of low end. Built-in tweeter protection and a heavy-duty crossover supply the RX14™ compression driver with clean power for the 90degree x 40degree constant directivity horn, while the carpet-covered cabinet and sturdy metal grille make the PV 215 a road-rugged loudspeaker.
